***"The Verde River system, including its tributary creeks, is the driving force behind the Verde Valley communities, economically, socially, and ecologically..."***

Ms. Steele brings over twenty-five years of environmental management and research experience to share with the Verde Valley, having used the tools of science and policy to catalyze change towards a more sustainable future. Among some of the success stories are partnerships, a suite of land and water-use tools, and an innovative water offset program.

The evening includes complimentary appetizers donated by [El Rincon Restaurante Mexicano](#) and refreshments provided by Keep Sedona Beautiful (KSB).
