

**MAKING**  
**DEMOCRACY WORK®**

Andrea Christelle  
andrea@SedonaPhilosophy.com

---

- Non partisan education and advocacy organization
- Do not endorse candidates or parties
- Take positions on issues at the national, state, and local level
- Provide training
- Offer a wide range of programs – Voter Education Program, Let's Talk Politics, Political Book Club, Political Film Club, Philosophy & Politics, Speaker Luncheons, Special Events

# Who Are We?

---

The League is here because we support environmental policies. The League consistently supports, *“legislation to preserve our nation’s natural resources and protect our public health (and seek) to protect our country from the physical, economic and public health effects of climate change while also providing pathways to economic prosperity.”*

- Advocacy Training (Request to Speak, legislative bill process)
- Voter Education Programs (request one or make one)

# **What Can We Do for You?**

---

*“Lobbying is an exercise in education, persuasion, and most of all, luck, which depends deeply on timing.”*

**–Anne L. Schneider, Unitarian Universalist Justice Arizona**

- Science is not enough. Fossil fuel industries have been politically and civically engaged. You should be too.
- Be persistent. Don't get dejected if you lose the first time.
- Compromise. Incremental progress is progress.
- Understand Arizona's initiative and referendum process.

# **What Should You Be Doing?**

---

- Political issues that may not seem to be connected to the environment can have environmental impacts.
- Protect Citizen's Right to Know
  - Redistricting
  - Voter access
  - Education policy
- The League can help you stay informed.

# Think Creatively

---

**League of Women Voters of Arizona Advocacy Training  
Workshop**
