

Take the KSB Energy Survey!

Yavapai County is in the process of updating its Comprehensive Plan to cover the next 10 years. This critical document will guide the Planning and Zoning Commission, as well as County Supervisors as they consider development proposals over the next decade. The Comprehensive Plan also contains the goals and policies of the County.

By law the County must include a section in its Comprehensive Plan covering energy. However, the statute only requires that the Comprehensive Plan must include a discussion on *“Planning for energy use that: (a) Encourages and provides incentives for efficient use of energy and (b) Identifies policies and practices for greater use of renewable energy.”*

To help understand the priorities of the residents of Yavapai County, Keep Sedona Beautiful created an energy survey that we would appreciate your completing. We will share the survey results with the County.

To take this important survey, visit the KSB website at www.keepsedonabeautiful.org or go directly to <https://www.surveymonkey.com/r/777MQ5D>

Please do not take this survey unless you are a resident of Yavapai County. Please respond only once per household.
