Yavapai County is in the process of updating its Comprehensive Plan to cover the next 10 years. This critical document will guide the Planning and Zoning Commission, as well as County Supervisors as they consider development proposals over the next decade.

If you are not yet familiar with the process for updating the Comprehensive Plan, **[CLICK HERE](#)** for an explanation.

By law the County must include a section in its Comprehensive Plan covering water, a critical topic in drought-stricken Arizona. The law states that the Comprehensive Plan must include *“Planning for water resources that addresses: (a) The known legally and physically available surface water, groundwater and effluent supplies. (b) The demand for water that will result from future growth projected in the comprehensive plan, added to existing uses and (c) An analysis of how the demand for water that will result from future growth projected in the comprehensive plan will be served by the water supplies*

To help understand the priorities of the residents of Yavapai County, Keep Sedona Beautiful created an environmental survey that we would appreciate your completing. We will share the survey results with the County.

Please do not take this anonymous survey unless you are a resident of Yavapai County.
